

Health and Safety

for congregations

Medical emergency

- Call '000' for medical emergency (immediate danger or life-threatening condition).
- Administer first aid.
- In a situation with many needing medical help, ensure any children, staff or visitors with medical or other needs (including those that are non-ambulant) are supported and have access to any required medications.
- Where possible, keep other children away from the emergency/incident.
- Contact parent/guardian of any affected children.
- Record evidence (if applicable).
- Provide support for children or others who may have witnessed the early stage of emergency or who are distressed.
